

CCF Branksome Chine Promenade: Landscape Upgrade

New shower to be installed

Upgraded kerbs/pavement to shop/kiosk

Land train turning circle with circular paving and inset metal sculptural elements noting historical features of the site

Removal of old signage and installation of new wayfinding totem

Removal of gate and installation of timber bollards

Cycle racks installed between planters and in front of shop

Planters for palm trees with integrated timber seats

Existing bench seats relocated further down promenade to increase seating

Cobbles either side of Branksome Chine to encourage reduced cycling speed
